Item 4: Advisory Business

A. Description of the Advisory Firm

This firm has been in business since August 21, 2006, and the principal owner is Timothy Robert Wesling.

B. Types of Advisory Services

Wesling Financial Planning Services Corp. (hereinafter "WFPS") offers the following services to advisory clients:

Investment Supervisory Services

WFPS offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. WFPS creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan (the Investment Policy Statement) to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

WFPS evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

401k and qualified plan advisory services

WFPS may perform the following Fiduciary Services, as well as others depending on the Client and circumstances:

- (i) Provide non-discretionary investment advice to the Client about asset classes and investment alternatives available for the Plan in accordance with the Plan's investment policies and objectives. Client shall have the final decision-making authority regarding the initial selection, retention, removal and addition of investment options.
 - (ii) Assist the Client with the selection of a broad range of investment options consistent with ERISA section 404(c) and the regulations thereunder.
- (i) Assist the Client in the development of an investment policy statement (IPS). The IPS establishes the investment policies and objectives for the Plan. Client shall have

the ultimate responsibility and authority to establish such policies and objectives and to adopt and amend the investment policy statement.

- (ii) Assist in monitoring investment options by preparing periodic investment reports that document investment performance, consistency of fund management and conformance to the guidelines set forth in the IPS and make recommendations to maintain or remove and replace investment options.
- (iii) Meet with Client on a periodic basis to discuss the reports and the investment recommendations.

Provide non-discretionary investment advice to the Plan Sponsor with respect to the selection of a qualified default investment alternative ("QDIA") for participants who are automatically enrolled in the Plan or who otherwise fail to make an investment election. The Client retains the sole responsibility to provide all notices to participants required under ERISA section 404(c)(5).

The Adviser may provide the following non-fiduciary services

- i. Assist in the education of the participants in the Plan about general investment principles and investment alternatives available in Plan. Client understands Adviser's assistance in participant investment education shall be consistent with and within the scope of investment education of DoL Interpretive Bulletin 96-1. Adviser will not provide investment advice concerning the prudence of any investment option or combination of investment options for a particular participant or beneficiary under the Plan
- ii. Assist in group enrollment meetings designed to increase retirement plan participation among employees and investment and financial understanding by the employees
- iii. Perform analysis of fees and expenses associated with the investments and the service providers
- iv. Perform provider searches and analysis of services provided by bundled providers, record-keepers and other service providers
- v. Perform benchmarking services, and provide analysis concerning the operations of the Plan

Financial Planning/Financial Analysis

Financial plans and financial planning may include, but are not limited to: investment planning, life insurance; tax concerns; retirement planning; college planning; and debt/credit planning. These services are based on fixed fees or hourly fees and the final fee structure is documented in Exhibit II of the Financial Planning Agreement.

Financial planning is the long-term process of wisely managing finances so a person can achieve goals and dreams, while at the same time negotiating the financial barriers

inevitably arising in every stage of life. Remember, financial planning is a process, not a product.

There are six steps in creating a Sound Financial Plan. They are:

Step 1, Establish Goals

Step 2, Gather Data

Step 3, Analyze & Evaluate Your Financial Status

Step 4, Develop a Plan

Step 5, Implement the Plan

Step 6, Monitor the Plan & Make Necessary Adjustments

Advice on Matters Not Involving Securities

Clients will be offered advice on issues beyond the scope of supervisory services or financial planning in relation to WFPS' divorce planning services (divorce planning services not involving securities). These services may include but are not limited to credit and insurance planning.

Services Limited to Specific Types of Investments

WFPS does not limit its investment advice and/or money management to specific types of investments or securities. WFPS may use a variety of securities to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

WFPS offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent WFPS from properly servicing the client account, or if the restrictions would require WFPS to deviate from its standard suite of services, WFPS reserves the right to end the relationship.

D. Wrap Fee Programs

WFPS does not participate in any wrap fee programs.

E. Amounts Under Management

WFPS has the following assets under management:

| Discretionary Amounts: | Non-discretionary Amounts: | Date Calculated: |
|-------------------------------|-----------------------------------|-------------------------|

Minimum Account Size

There is no account minimum.

Item 8: Methods of Analysis, Investment Strategies and Risk, of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

WFPS' primary method of analysis is fundamental analysis.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Form ADV 2A Version: 3/4/2015

Investment Strategies

WFPS uses long term trading and short term trading strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Short term trading generally holds greater risk and clients should be aware that there is a material risk of loss using any of those strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

WFPS generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets.

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various other types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Short term trading risks include liquidity, economic stability and inflation. Frequent trading can affect investment performance, particularly through increased broker and other transaction costs and taxes.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of this advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Neither WFPS nor its representatives are registered as a broker/dealer or as representatives of a broker/dealer.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither WFPS nor its representatives are registered as a FCM, CPO, or CTA.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

WFPS allows clients to choose their own broker-dealer or custodian to execute security transactions and have custody of client accounts. WFPS may recommend Fidelity Brokerage Services LLC, CRD # 7784 as a custodian if clients have no preference. Clients should be aware the execution of trades pays a commission and involves a conflict of interest, as commissionable products conflict with the fiduciary duties of a registered investment adviser. WFPS always acts in the best interest of the client; including the sale of commissionable products to advisory clients.

D. Selection of Other Advisors or Managers and How This Adviser is Compensated for Those Selections

WFPS does not utilize nor select other advisors or third party managers. All assets are managed by WFPS management.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Clients may request a copy of our Code of Ethics from management.

B. Recommendations Involving Material Financial Interests

WFPS does not recommend that clients buy or sell any security in which a related person to WFPS has a financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of WFPS may buy or sell securities limited to mutual funds for themselves that they also recommend to clients. This may provide an opportunity for representatives of WFPS to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. WFPS will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of WFPS may buy or sell securities for themselves at or around the same time as clients. WFPS will not trade non-mutual fund or non-ETF securities 5 days prior to or 5 days after trading the same security for clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

The recommended Custodian, Fidelity Brokerage Services LLC, CRD # 7784, was chosen based on their relatively low transaction fees and access to mutual funds and ETFs. WFPS will never charge a premium or commission on transactions, beyond the actual cost imposed by Custodian.

1. *Research and Other Soft-Dollar Benefits*

WFPS receives no research, product, or services other than execution from a broker-dealer or third-party in connection with client securities transactions (“soft dollar benefits”).

2. *Brokerage for Client Referrals*

WFPS receives no referrals from a broker-dealer nor third party in exchange for using that broker-dealer or third party.

3. *Clients Directing Which Broker/Dealer/Custodian to Use*

WFPS may recommend Fidelity Brokerage Services LLC, but they allow clients to direct brokerage. WFPS may be unable to achieve most favorable execution of client transactions if clients choose to direct brokerage. This may cost clients’ money because without the ability to direct brokerage WFPS may not be able to aggregate orders to reduce transactions costs resulting in higher brokerage commissions and less favorable prices. Not all investment advisers allow their clients to direct brokerage.

B. Aggregating (Block) Trading for Multiple Client Accounts

WFPS maintains the ability to block trade purchases across accounts but will rarely do so. While block trading may benefit clients by purchasing larger blocks in groups, we do not feel that the clients are at a disadvantage due to the best execution practices of our broker.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

Client accounts are reviewed weekly only by Timothy Robert Wesling, President. Timothy Robert Wesling is the chief advisor and is instructed to review clients’ accounts with regards to their investment policies and risk tolerance levels. All accounts at WFPS are assigned to this reviewer.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least a quarterly written report detailing the clients account performance, which may come from the broker.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

WFPS does not receive any economic benefit, directly or indirectly from any third party for advice rendered to WFPS clients.

B. Compensation to Non -Advisory Personnel for Client Referrals

WFPS does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

WFPS will not have custody of client funds or accounts at any time. All fees will be billed to and collected from clients directly.

Item 16: Investment Discretion

For those client accounts where WFPS provides ongoing supervision, the client has given WFPS written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold. This DOES NOT include the authority to choose the custodian. Details of this relationship are fully disclosed to the client before any advisory relationship has commenced. The client provides WFPS discretionary authority via a limited power of attorney in the Investment Advisory Contract and in the contract between the client and the custodian. Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

Item 17: Voting Client Securities (Proxy Voting)

WFPS will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the broker. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

WFPS does not require nor solicit prepayment of more than \$500 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.
